

LICENCE CLASSES

EMERGENCY LIGHTING OCCUPATIONAL LICENCES

Licence Classes

- (1) Certify.
- (2) Inspect and test

Scope of work

- (1) For a licence class mentioned in section 1. above — certify, inspect and test emergency lighting systems to provide a level of illumination for safe evacuation in a fire emergency, provide identification of exits and paths of travel to an exit, and to safeguard occupants by making them aware of the fire emergency.
- (2) For a licence class mentioned in section 2. above — inspect and test emergency lighting systems to provide a level of illumination for safe evacuation in a fire emergency, provide identification of exits and paths of travel to an exit, and to safeguard occupants by making them aware of the fire emergency.

Technical qualifications

- (a) For the licence class mentioned in section 1. above —
 - (i) the successful completion of all of the following units of competency—
 - Follow OH&S Policies and Procedures BCGCM1001B;
 - Read and Interpret Plans and Specifications BCGCM2001B;
 - Carry Out Measurements and Calculations BCGCM1005B;
 - Inspect for Legislative Compliance PUAFIR510A;
 - Prepare a Fire Protection Certification Statement or Report REP 1;
 - Inspect, Test and Maintain Emergency Exit Lighting Systems PRMPFES26B; or
 - (ii) successful completion of a course the authority considers is at least equivalent to all of the units of competency mentioned in paragraph (a)(i);
- (b) For the licence class mentioned in section 2. above —
 - (i) the successful completion of Certificate II in Asset Maintenance (Fire Protection Equipment) PRM20404 including successful completion of the competency—
 - Inspect, Test and Maintain Emergency Exit Lighting Systems PRMPFES26B; or
 - (ii) successful completion of a course the authority considers is at least equivalent to the course mentioned in paragraph (b)(i); or
 - (iii) possession of an electrical mechanic licence.

DEFINITIONS

Certify means

- (a) to give advice or a report, including a certificate, stating that a fire protection system complies with Australian and international standards, Building Code of Australia requirements and manufacturer’s specifications after conducting a survey of the system; and
- (b) to give a QBSA licensee certificate under the *Building Regulation 2006* for the work.

Inspect and test means

- (a) to inspect by visual examination the components of fire protection systems or equipment to establish correct settings, physical condition or fitness for purpose under 1-5-5, AS 1851-2005; and
- (b) to test, after inspecting, by the confirmation of correct function or performance of a component or system under 1-5-13, AS 1851-2005.
